Good construction doesn't go out of style. That's our MO and that's why we create cases that are done right. Designed with a 12U slanted top rack for convenient mixer/CD controller placement and a 12U vertical rack for amp or effect units, the RR12M12U is built right. The RR12M12U features an 18" rack depth and 2 heavy-duty removable covers. To make a good thing even better we added a unique removable, rear hinged door for easy access to your gear. At last connections without a hassle! And to give you a rolling start on the crowds, we included a beefy, 3 1/2" caster. Craftsman ship you can be proud of... Road Ready.
